

of abating, but Tammany Hall is indifferent to the innocent amusement of the people. A small expenditure of money on Saturday and Sunday in employing an extra force of men to sweep away the snow would have put all the lakes in the city parks in splendid condition, and afforded pleasure to thousands of hardworking men and women, boys and girls who can have no other day than Sunday for their sport. But Tammany Hall cares nothing for the amusement of the people. The time when it is in power, it is a political organization which has millions to squander on jollery and useless officials, refused to expend a few hundred dollars to give the plain people of the city a day of innocent amusement. skating was enjoyed by the usual crowds at the lakes in Central and Prospect parks yesterday. spasmodic efforts were made to clear the snow from the ice, but only partial success. The high winds would bring back the heavy flakes in clouds, and in spite of the workmen's efforts, only fair skating was enjoyed. There were large crowds in all the lakes, and it was only the most expert who could keep their balance. Novices were sent sprawling in every direction. Skaters declared that the ice is not properly cleared off, and that if scrapers were used instead of brooms and brushes a better skating surface would result.

#### ARCTIC SCENES IN THE SOUTH.

A DOZEN PEOPLE SAID TO HAVE BEEN FROZEN TO DEATH IN EASTERN TENNESSEE.

Chattanooga, Tenn., Jan. 16.—Chattanooga is without a drop of water. At midnight the water company's supply gave out on the freezing of the river and the water in the section pipes. Every business house, factory, newspaper and residence is affected by the damage. The electric lights went out last night and the city was pitch dark. In case of fire not a drop of water could be secured for work. The situation is critical.

Nashville, Tenn., Jan. 16.—The weather for the past two days has been bitterly cold. The thermometer is frozen from back to back, and during yesterday was visited by thousands who wished to gaze at the unusual sight. Bonds near the city have been crowded with skaters, a scene rarely witnessed here.

Memphis, Tenn., Jan. 16.—Never in the history of the Central south has there been so much suffering from cold weather as at present. All rivers have been blocked with ice and snow, rendering passage over them impossible. Many trains are late, and some have been abandoned by their suffering passengers. The most intense suffering is prevalent among mountaineers. The snow is from ten to twelve inches deep in the Eastern Tennessee, Western North Carolina and Eastern Kentucky, and all kinds of labor have been suspended.

Knoxville, Tenn., Jan. 16.—Not for thirty years has there been such severe weather as now prevails in this section. The thermometer is far below zero. A dozen or more people are reported to have been frozen to death. Business of all kinds has been suspended, and the united efforts of the city officials and church members are being utilized to aid the poor.

Charleston, S. C., Jan. 16.—The unprecedented cold weather here has been a great calamity. The snow is from ten to twelve inches deep in the Eastern Tennessee, Western North Carolina and Eastern Kentucky, and all kinds of labor have been suspended.

Camden, S. C., Jan. 16.—The mercury was down early this morning to a record low. This is the longest cold spell that has ever occurred here. The thermometer registered 10 degrees below zero, the coldest weather here for forty years.

Asheville, N. C., Jan. 16.—The snow is from ten to twelve inches deep in the Eastern Tennessee, Western North Carolina and Eastern Kentucky, and all kinds of labor have been suspended.

#### WATER FAMINE IN THE MOHAWK.

Fonda, N. Y., Jan. 16.—The scarcity of water is becoming a serious matter in the villages and farming communities of the Mohawk valley. The farmers have been compelled to haul water for miles from rivers for their stock. In Fonda the reservoir is so low that it is shut off from 5 p. m. until 7 a. m.

#### ICE-BLOCKED BAYS AND HARBORS.

Newport, R. I., Jan. 16.—Last night was another cold one, and the result was that the inner harbor is now practically closed to all craft. The New York steamer is landing here, not desiring to attempt a passage up the bay. Ferries and boats are stuck in the ice, and are unable to move.

Bridgeport, Conn., Jan. 16.—The ice blockade in the harbor grows worse each day. No sailing vessels have entered or left here for ten days, and the steamer City of Bridgeport and Nutmeg State can reach their pier only with difficulty.

Philadelphia, Jan. 16.—The day was intensely cold here. At 8 o'clock the thermometer registered 22 degrees below zero. At noon it had risen to 8 degrees above, and at 3 p. m. it reached 12 degrees. The mercury then began again gradually to descend. The effect of the severe weather seems to be felt in every channel of communication, by rail as well as by water. River navigation is almost at a standstill. No boats are moving in the Delaware except the ferries, iceboats and tugs.

Easton, Penn., Jan. 16.—This is the coldest day that has been felt in this section for many years. At 6 a. m. the thermometer registered 15 below and at 8 a. m. 10 degrees below zero.

Binghamton, N. Y., Jan. 16.—This is the coldest day of the season in this vicinity, 18 degrees below zero being recorded at an early hour this morning.

Newburg, N. Y., Jan. 16.—The temperature at Millbrook, Dutchess county, this morning was 22 below zero. At Fishkill Village, in the Highlands, 12 below; in Blooming Grove, Orange county, 10 below.

Easton, Penn., Jan. 16.—This was the coldest morning in this part of the country in five years. The mercury touched 6 below in Easton and 10 below at Wind Gap in the Blue Mountains.

Westchester, Penn., Jan. 16.—The mercury registered here this morning 12 degrees below zero. James Otis, a teamster, of Poughkeepsie, was frozen to death. Shamokin, Penn., Jan. 16.—This morning the thermometer registered 24 below zero at Bear Gap pumping station, being the coldest record in the coal region since 1852. Many colliers are unable to work.

#### SNOW BLOCKADE ON THE CENTRAL.

Niagara Falls, N. Y., Jan. 16.—One of the heaviest snow blockades on the New York Central in years took place last night on the Falls Branch of the road at Holly, fifty miles east of here. There have been no trains since 8 o'clock last night, when the day express arrived. The trouble began with a freight train which became stalled just south of Holly. Four east-bound passenger trains were held at Murray, this side of Holly, while the many west-bound passenger trains were held at the other side. The work trains, with big gangs of shovellers, were busy all day trying to shovel out the freight, but as fast as they cleared one portion of the train the wind would fill it in, and the work seemed useless. The trains on all the other roads are from one to ten hours late. The Rome, Watertown and Ogdensburg branch was completely blocked. The Albany and Schenectady branch was down and there seems to be a prospect to-night of clearing the roads.

#### EX-CONTROLLER WEMPLE'S NEPHEW FROZEN.

Fonda, N. Y., Jan. 16.—David Wemple, of Fultonville, was frozen to death last night on the road from Fonda to Johnstown. Wemple was twenty-seven years old, and was a nephew of ex-Controller Wemple.

#### AN ABUNDANT ICE CROP ON THE HUDSON.

Kingston, N. Y., Jan. 16.—Ice harvesting on the Hudson is now in full progress, and with favorable weather most of the great storehouses will be nearly filled at the end of the present week. The crop was never better in quality or more abundant than has it ever before matured quite so early. It is said that over 10,000 men and about 2,000 horses are now engaged in the harvest on the river. All the most approved appliances for scraping, marking, plunging, elevating and storing are in use here, and only about fourteen days of steady work are now required to complete the harvest.

#### THE KEELY TREATMENT.

WITH THE Double Chloride of Gold Remedy, for ALCOHOLISM, DRUG ADDICTION AND NERVE EXHAUSTION. Can be used in all cases. Sold by Dr. J. C. Keely, 122 Broadway, New York. Also by Dr. J. C. Keely, 122 Broadway, New York. Also by Dr. J. C. Keely, 122 Broadway, New York.

#### BEWARE OF IMITATORS.

Unequaled for relieving the SORENESS, ITCHING or BURNING, reducing the INFLAMMATION, taking out REDNESS, and quickly bringing the skin to its natural color.

BEWARE OF IMITATION. Take POND'S EXTRACT only. See landscape trademark on each wrapper. Sold only in our own bottles.

POND'S EXTRACT CO., 76 5th AVE., NEW YORK.

required to fill all the storehouses on the river. This will mean about 4,000,000 tons of ice, and it is possible that another 500,000 tons will be stored for use in the spring. It is estimated that the cost of hauling this immense crop will not exceed 20 cents a ton. The ice is from ten to sixteen inches thick.

#### CLEVELAND'S WAR ON HILL.

THE SENIOR SENATOR TO BE IGNORED.

ANTI-SNAPPERS HOPE THAT MAURICE J. POWER WILL BE MADE POSTMASTER—HOW WILL CROKER LIKE THAT?

Mr. Cleveland's visit to this city from Lakewood yesterday created a flood of interesting political gossip in motion, relieving the stagnation of the last two days. The President-elect saw Senator Vilas, of Wisconsin, who had come from Washington for the purpose. The silver bill was the main subject discussed. Mr. Vilas, who is recognized as one of Mr. Cleveland's exponents on the floor of the Senate, is in thorough accord with the head of the coming Administration on all questions of the tariff and monetary legislation, and came to inform the President-elect of the latest phases of the situation and receive his views, so as to be prepared to instruct Administration Democrats in both Houses as to their duty. It is needless to say that Mr. Cleveland wants every loyal supporter of his to steer clear of Senator Hill and his legislation schemes.

This is in strict accord with the policy which Mr. Cleveland has marked out for the treatment of Mr. Hill. The senior Democratic Senator from the President's own State, for such Mr. Hill will be after March 4, is to be steadily ignored, and no friend of his is to have the slightest recognition at the hands of the Administration so long as he maintains friendly relations with Mr. Hill. The appointment of Colonel Daniel S. Lamont as Postmaster-General to lead the Anti-Snapper and Hill forces in the opposition to Mr. Cleveland's policy is a move which the office of First Assistant Postmaster-General. This is expected to raise Mr. Hill's opposition in the Senate if anything will, and the opportunity will be given to every man to declare himself.

Mr. Cleveland has no doubt as to how the fight for a continuation of the tariff will be fought. He expects to "wipe the ground" with Mr. Hill at the very start of the battle. In the matter of confirming his nominations he is not likely to be disappointed, as prominent Republicans in that body have already expressed their desire to pursue the policy of doing nothing to embarrass the incoming President, but to vote for all his prominent appointments. If Mr. Murphy assumes an antagonistic attitude against Mr. Hill in opposing anti-Snapper appointments, he will find himself included in the ignoring process which is to be applied to Mr. Hill. Friends of his say that he will not do this, but will quietly vote for confirming whoever may be chosen by the President, no matter how distasteful the doses prepared for him.

"Murphy has made up his mind to take his medicine," said a prominent Snapper politician yesterday. "He knows that he cannot come from sacrificing himself on the altar of Hillism. In this course he is backed by Croker, who has cut loose from Hill, and hopes yet to win the favor of Cleveland and become the almoner of the Federal patronage in this city."

It is really Mr. Croker's expectation the Anti-Snappers in New York believe that he is doomed to die in appointment. They are pretty certain just now in the absence of any positive assurances from Mr. Cleveland that the Senator is not likely to be placed in their hands. They are encouraged by the fact that Mr. Cleveland is fully aware that they cannot build up a strong Cleveland Anti-Snapper and Anti-Tammany organization in this city unless they have the patronage of the Administration to distribute among the faithful who are ready to step into the front line whenever the word is given.

Prominent among the expectant Cleveland Anti-Hill Democrats of New York is Maurice J. Power, leader of the County Democrats. Ex-Judge Power is looked by his Anti-Snapper friends for the office of Postmaster and he hopes to become Mr. Van Cott's successor as soon after Inauguration Day as Mr. Cleveland can make it convenient to send his name to the Senate. This will be a trying moment for Mr. Croker, but he has solemnly promised to uphold the President's denial having full faith in his promises. The Anti-Snappers are extremely sanguine about Mr. Power, but their ambition for office takes in the heart of the city for the first time.

As yet they have not agreed upon any particular candidate. A meeting in this city called to take place at an early day to map out the plan of campaign, against the Snapper machine, has been postponed. The Anti-Snappers are waiting for the President's action. They are waiting for the President's action. They are waiting for the President's action.

Having been assured of the active assistance of the Administration the majority of the gentlemen who gathered at the President's house last night were anxious for the time for the hunt for Snapper snipes to begin. The prospective Senator Hill and his friends are waiting for the President's action. They are waiting for the President's action. They are waiting for the President's action.

Some of them believe that they can take the Snapper machine away from Mr. Hill in less than six months. Others, however, are not so confident. They are waiting for the President's action. They are waiting for the President's action. They are waiting for the President's action.

Mr. Cleveland expected to return to Lakewood yesterday by the 3:40 train, but he overstay his time and decided to remain in the city overnight. He telegraphed the fact of his delay to Mr. Hill, who was expecting him back at Lakewood to dinner. The President-elect will meet a number of friends at his law office in the Mills building this evening. His present purpose is to go back to Lakewood this afternoon.

Dr. F. J. BLINN ACCUSED OF MALPRACTICE.

Dr. Frank J. Blinn, of No. 19 West Fifty-eighth-st., was committed to prison in \$5,000 bail yesterday afternoon for examination by Justice McMahon at the Yorkville Police Court on a charge of malpractice. The victim is a strongman, Alice Whitney, twenty-four years old, now at her home, No. 33 West Forty-fourth-st., in a critical condition. Her ante-mortem statement is to be taken. On Dr. Blinn's house is the name Dr. Gray-Blinn.

The police of the West Forty-seventh-st. squad learned of the case on Sunday night through Dr. A. W. Beck, of No. 321 West Thirty-sixth-st. He had been called on Sunday the woman yesterday night, but had discovered on Tuesday the nature of her trouble. On his report Acting Captain Keen assigned Detectives Morris and Glenn to the case. They went to the house at once, but the sick woman refused to give them the name of the doctor who was attending her. Her ante-mortem statement is to be taken. On Dr. Blinn's house is the name Dr. Gray-Blinn.

doctor advised her to tell the detectives everything, as her condition was serious. She then accused Dr. Blinn with having performed the operation last Thursday. She said that she had first visited the doctor on Tuesday, when the arrangements were made, and had paid him \$200 on account. On Thursday she had given him \$400 more, when he had performed the operation in his office. He had asked her to remain in his house until she recovered, but she had declined to do so.

The detectives placed Dr. Blinn under arrest and brought him to the bedside of the woman who had positively identified him as the man who had performed the operation. When assigned before the justice the doctor made a general denial of the charge and said that he wished to send for his lawyer, Judge Furber. The hearing will take place this afternoon.

#### LABOR MEN AIR THEIR VIEWS.

THEY DISCUSS RAPID TRANSIT PLANS.

DR. MCGLYNN PRESIDED AT THE COOPER UNION MEETING LAST EVENING—HENRY GEORGE AND EDWARD KING THE PRINCIPAL SPEAKERS.

That interest in the question of rapid transit is increasing was made evident by the mass meeting held in Cooper Union last evening under the auspices of the Central Labor Union and the Chautauque Club. Although the meeting was only announced on Sunday there were about 500 people at the meeting last evening. The fact that the meeting was to be held was not generally known among working people yesterday. Otherwise the large hall would undoubtedly have been filled, as it is likely to be at the series of agitation meetings to be held there within the next few months. The meeting was called to order by James P. Archibald, the delegate for the Paperhangers' Union to the Central Labor Union. He introduced the Rev. Dr. McGlynn as the chairman of the meeting. Dr. McGlynn was a few minutes of applause, and he called the short speech he made to order. He called the short speech he made to order. He called the short speech he made to order.

Although the meeting was only announced on Sunday there were about 500 people at the meeting last evening. The fact that the meeting was to be held was not generally known among working people yesterday. Otherwise the large hall would undoubtedly have been filled, as it is likely to be at the series of agitation meetings to be held there within the next few months. The meeting was called to order by James P. Archibald, the delegate for the Paperhangers' Union to the Central Labor Union. He introduced the Rev. Dr. McGlynn as the chairman of the meeting. Dr. McGlynn was a few minutes of applause, and he called the short speech he made to order. He called the short speech he made to order. He called the short speech he made to order.

That interest in the question of rapid transit is increasing was made evident by the mass meeting held in Cooper Union last evening under the auspices of the Central Labor Union and the Chautauque Club.
